

International Contractors Ltd.

"Standing the Test of Time"

TEK International Contractors Ltd. is a respected and a fast-growing building and civil construction firm in Ghana. We are the preferred construction firm when budget, schedule and quality targets must be achieved as we adopt modern formwork building solutions. We are a strong firm with loyal customers from across Ghana.

Our approach to construction is to create, modify, enhance and give value for money to our clients through quality construction work and professionalism. We provide a full range of building construction and civil construction services using well renowned and state of the art technology which provides our clients with very efficient construction methodology in a safe, quicker and highly cost effective manner.

Vision

TEK International is dedicated to constant enhancement to become the leading building and civil construction company in Ghana which delivers excellence, one project at a time.

Our Brand Promise

To deliver projects on time and on budget to bring pride and business success to our customers.

How we work

For each unique project, TEK thrives on her most experienced team as well as expert consultants to ensure best practise and results. Our own team boast of experienced civil and structural engineers, architects and a quality labour force.
